## CINE CLIENT BUS

Designed for Still and Motion Picture Location Shoots

We are pleased to announce the recent addition of our new client bus to the Cine Support Fleet. The "Client Bus" comfortably seats 10 people with two monitors situated at the rear of the bus for clear sight lines. The bus is equipped with a Honda 3000IS generator allowing to work autonomously from the main unit. The bus is also equipped with tails to tie into the main set generator. There are numerous power stations located throughout with small work tables for laptops.

The newly installed AC/HEATING unit provides comfort for all seasons.

Height: 3.05 metres / 10 feet

Travel Width: 2.44 metres / 8 feet

Length: 8.23 metres / 27 feet includes the cargo basket, 24' without basket (7.31 metres)
